## Dialogue

The Government of Newfoundland and Labrador regularly seeks input and feedback on programs, services and matters of public policy.

We are reaching out to Newfoundlanders and Labradorians through a range of public engagement activities to capture ideas, insights and strengthen dialogue. Your involvement is important. With you, we will create the first Open Government Action Plan for our province. We will use online tools including social media and feedback forms, as well as in-person activities like face-to-face meetings and interactive sessions.

To make sure this Action Plan represents the views of Newfoundlanders and Labradorians, we will take time for meaningful discussion. Our approach involves your input as we move forward. Information gathered will be shared publicly, and key themes and early actions will be made available for review. Your feedback will help us identify the information of greatest value and issues of most importance to the people of the province.

Details of all public engagement activities for the Open Government Initiative will be listed on this webpage. We will

# Goals

- Create opportunities for dialogue and participation.
- Support departments and agencies in the development of meaningful engagement activities.
- Enhance understanding of the importance of engagement processes.

# Early Actions

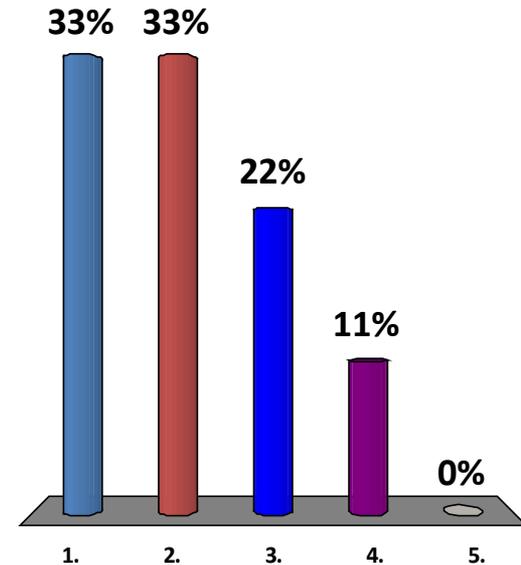

- Develop and commence delivery of public engagement capacity-building training activities within the public service.
- Develop a public engagement guide.
- Champion employee recognition efforts focused on “public engagement” practice.
